

## DPBS

### Dulbecco's Phosphate Buffered Saline

no Calcium and Magnesium

#### High quality salt solutions

Balanced salt solutions can provide an environment that maintains the structural and physiological integrity of cells in vitro. Captivate Bio's DPBS is a balanced salt solution used for a variety of cell culture applications, such as washing cells before dissociation, transporting cells, diluting cells for counting, or as an inorganic base for standard media preparation.

#### This DPBS is modified as follows:

##### Without

- Calcium
- Magnesium
- Phenol Red

Captivate Bio's DPBS is manufactured under cGMP guidelines and in ISO-certified facilities. Custom, bulk, and flexible formats are also available.
