DELIVER**

CAPTIVATE BIO

Located in Watertown, Massachusetts, Captivate Bio is focused on meeting the rapidly evolving needs of scientists in emerging fields within the research, therapeutic, and healthcare communities around the world. With continued success in reliable cell culture media and reagent manufacturing, supply, and distribution, Captivate Bio is poised to take its place as a leading, go-to supplier of scientific solutions for the life sciences industry.

Captivate Bio's commercial services provides industry partners with consulting expertise that specializes in operations, commercialization, and storage and fulfillment programs in the life sciences space. With reliability and transparency, we work as an extension of your team in providing insight into our direct customer base as well as easy access to one of the largest life science markets in the world - the US market.

EXPERT GUIDANCE TAILORED SERVICES

OUR CAPABILITIES

Our team applies best practices to tough and unique challenges for our customers and our clients. We can help with a wide range of needs, spanning from establishing a presence in the US, product distribution services, marketing and sales programs, to order processing, logistics, and storage services.

US Market Entry & Distribution Services

Establish a US presence with an experienced partner at a fraction of the cost of going alone. Our services include everything from entity establishment, advising, to order processing, and distribution services.

Marketing & Sales Programs

Gain access to Captivate Bio's network with marketing and sales programs for clients looking for help with expanding lead generation activities, sales, product adoption, sample programs, and onsite show support.

Product Fulfillment & Logistics

We work by helping get your product from A to B with logistics services including transportation coordination, import/export support, as well as product shipping and fulfillment services, among others.

Warehouse & Storage Services

We have 2200 sq. ft. of warehouse space dedicated to our customers. Located outside of Boston, MA, storage services includes temperature controlled ambient and cold storage and monitoring in the cloud.
